

## NEW BOOKS AND MEDIA

### Sea Stories

Author Dr. Danielle Dixon has developed a new children's book series called Sea Stories, inspired by her own marine science research. Her first two books are titled, *A Butterflyfish's Journey to Find Delicious Food* and *How the Tiny Gobies Saved their Coral Reef Home*. With vivid illustrations and a story that young children will easily follow and enjoy, the books include topics on marine animals, ocean acidification, and the delicate balance between ocean inhabitants on a coral reef. For more information about the books as well as activities, visit [Sea Story Books](http://SeaStoryBooks.com).

### A Perfect Day for an Albatross

*A Perfect Day for an Albatross*, by Caren Loebel-Fried, an award-winning author and artist from Hawai'i, explores the world of albatrosses, and their intense commitment to one another and their nestlings. Set on Midway Atoll, where 72 percent of the world's Laysan albatrosses make their nests, the story centers on Mālie, an albatross who must protect her egg until her mate returns. Educators can also download the Educational Guide that accompanies the book for access to activities that target national education standards for grades 1-3 at [www.bird-sleuth.org/PerfectDay](http://www.bird-sleuth.org/PerfectDay)—and for more information about the book, [click here](#).

## ADVERTISE in Current!

*Current: The Journal of Marine Education* is the only professional, peer-reviewed digital and printed journal for marine educators at all levels. Promote your organization's products, programs, books, new media, and other resources by advertising in *Current*, the journal of the National Marine Educators Association (NMEA). Share your group's message with a targeted, niche audience of marine educators across the country and overseas.

To learn more about advertising in *Current*, please visit our [ad rates sheet](#) or contact the editors at [current@natlmarineed.org](mailto:current@natlmarineed.org) for more details.
